

Program Model:

MODEL 1: WORKING ONE-ON-ONE ONLINE (SKYPE)

DFYL Facilitator will work one-on-one over Skype with each college athlete twice a week for six weeks. Our program focuses on fluency, comprehension, vocabulary and spelling. All students are pre/post tested for fluency, accuracy, comprehension and given a short assessment for self-esteem and motivation. Progress reports are given to an administrator every two weeks and a copy of test results at the end of the program.

Through our website www.dfyl.org, students will be able to connect with a DFYL facilitator through Skype, download reading materials, access their test scores and progress reports, and take program assessments.
